Since this breach, we have taken the following steps to ensure it does not reoccur (attach additional pages if necessary)

To help prevent something like this from happening in the future, the Law Office is strengthening its physical office and computer security and enhancing its practices and procedures regarding the safeguarding of firm property and confidential information.

Any other information that may be relevant to the Office of Attorney General in reviewing this incident (attach additional pages if necessary)

Our client, the Law Offices of Jon P. Yormick Co. LPA ("Law Office"), takes the privacy and safety of personal information very seriously. Regrettably, during the evening hours on June 13, 2015, two desktop computers and a hard drive were stolen from the Law Office. Upon discovering the theft on June 15, 2015, the Law Office immediately notified the Cleveland Police Department. The Law Office is working with law enforcement, but to date, the two stolen desktop computers and hard drive have not been recovered. The Law Office also promptly began an internal review to determine what specific information was contained on the two desktop computers and the hard drive. This took time as the Law Office had to first obtain backup data from an outside vendor. The Law Office determined that the two desktop computers and hard drive may have contained certain individuals' names, addresses, Social Security numbers and, in some instances, health records. The Law Office has no reason to believe that the two desktop computers and hard drive were stolen for the information they contained or that your information has been accessed or used in any way. The Law Office is recommending that affected individuals remain vigilant by reviewing their account statements and credit reports for unauthorized activity. The Law office is providing a telephone number that affected individuals can contact with questions.
